STUDENT SATISFACTION RATINGS

[Overall review](#)

Admission -

8.2 /10

The College has a beautiful campus, we have two canteens, two snacks centres, juice centre, girls and boys mess, bakery, general stores and photocopy zerox centre. The campus is quite evergreen and good. Just the negative part about it is that our campus doesn't have a cricket or football ground. But we do have basketball court, volleyball court, badminton, etc. We also have cultural halls.

[Good College but not that excellent](#)

Admission -

6.3 /10

College is very good for CS and IT if you have scored average marks in Entrance exams. But you have good score then there are many better colleges than this. I suggest you to do not take admission in Mechanical and Civil department in this college because there are zero placements.

[Excellent campus which is nature friendly to study](#)

Admission -

8.3 /10

The best college for enjoyment as well as study compares to all engineering colleges in Pune. Our college conducts a lot of programs and has a very good name and fame in Pune and in the whole state. So our college is best.

STUDENT SATISFACTION RATINGS

Admission -

8 /10

Mainly I came to know that highly qualified teachers conduct classes effectively throughout the year. Teachers are always in touch with the guardians of the students through telephone calls and Parent-Teacher Meets organized by each department. Attendance is compulsory. As a result we always end up with good academics, with outstanding results in the University Examinations. Along with this the curriculum activity is also the best. So I chose this college.

Placement -

7 /10

The 80% students got placed. The highest package offered was 9lpa and the lowest package offered was 3lpa. There were many IT companies including Infosys, Accenture, cognizant etc. The top roles offered were software developer, technical support engineer etc.
